Dear Dan:

I wanted to express my gratitude for the work you did on the Goldstrike project, especially installation of the drain field system. I was given instructions to have the project completed by the end of April and was concerned whether it could happen that quickly. I appreciate how well you expedited the work.

While I had little previous involvement with the project, I know that your work was done professionally and as the Division requested, and I want to thank you.

Sincerely,

Paul B. Baker
